## OBJECTIVE

Aspire to begin my career as a Java Full Stack Developer by leveraging my skills in designing, developing, and deploying software solutions. Dedicated to building robust applications, streamlining processes, and collaborating with teams to deliver impactful results

## EDUCATION

<b>Annamalai University</b> <i>Master of Business Administration (MBA)</i>	<i>Chidambaram, India</i> 2025 – 2026
<b>Manakula Vinayagar Institute of Technology</b> <i>Bachelor of Technology in Information Technology CGPA: 7.6</i>	<i>Pondicherry, India</i> 2020 – 2024
<b>Kalima Matric Higher Secondary School</b> <i>Higher Secondary Certificate (HSC) Aggregate: 60.00%</i>	<i>Parangipettai, India</i> 2019 – 2020
<b>Kalima Matric Higher Secondary School</b> <i>Secondary School Leaving Certificate (SSLC) Aggregate: 74%</i>	<i>Parangipettai, India</i> 2017 – 2018

## CERTIFICATIONS

- **Java Full Stack:** Acquired skills in Java and React
- **AWS Cloud Foundation:** Certified by Amazon gained foundational knowledge in cloud computing.

## TECHNICAL SKILLS

- **Programming Languages:** Java, SQL
- **Web Development:** React, JavaScript, HTML, CSS
- **Database:** MySQL
- **Tools:** Apache Tomcat

## AREAS OF EXPERTISE

- **Object-Oriented Programming (OOP):** Skilled in creating scalable, reusable, and maintainable code using OOP principles
- **Data Structures & Algorithms:** Proficient in optimizing code performance through effective algorithms and data structure implementation.
- **Computer Networks:** Knowledgeable in network protocols, OSI layers, and distributed systems.

## PROFESSIONAL EXPERIENCE

<b>Nexgen Technologies</b> <i>Java Full Stack Developer (Intern)</i>	<i>Nov 2022 – Dec 2022</i>
– <b>Contributed to Full Stack Development:</b> Collaborated with a team to develop and deploy Java-based applications in React	

## PROJECTS

### Efficient Smart Contract Using Binance Smart Chain for Agri-Food Traceability *Final Year Project — 2024*

- Built a blockchain-based traceability platform on Binance Smart Chain to improve transaction speed and reduce costs.
- Enhanced supply chain monitoring with efficient contract deployment.

**Technologies:** Python, Flask, Sql, javascript, Ganache

### Biometric Student Attendance & Performance System *Mini Project — 2023*

- Developed a biometric-based system for automated attendance and performance tracking.
- Designed front-end with Android Java and XML; managed back-end with SQL Server.

## ACTIVITIES

- **Member:** Bharat Scouts Gained leadership skills and problem-solving capabilities through team activities and projects.
